CHLORIDE	99.1		90 - 110	mmol/L

### Interpretation:

Blood urea nitrogen (BUN) and creatinine are waste products that are filtered out of the blood by the kidneys. Elevated levels of BUN and creatinine in the blood can indicate decreased kidney function. The glomerular filtration rate (GFR) is a measure of how well your kidneys are filtering waste products from your blood. A low GFR can indicate decreased kidney function. Urine albumin-to-creatinine ratio (ACR) is a measure of the amount of albumin (a type of protein) in your urine relative to the amount of creatinine. Elevated levels of ACR can indicate damage to the kidneys.

## HAEMATOLOGY BLOOD GROUP & RH FACTOR

DESCRIPTION	RESULT	FLAG	REF. RANGE	UNIT
Blood Group	AB			
Rh Factor	Positive (+ve)			

Information:

ABO blood group: This test determines an individual's blood group, which can be one of four types: A, B, AB, or O.  
Rh factor: This test determines whether an individual's blood contains the Rh factor, which can be either Rh positive or Rh negative.

## BIOCHEMISTRY BLOOD SUGAR= RANDOM

DESCRIPTION	RESULT	FLAG	REF. RANGE	UNIT
BLOOD SUGAR= RANDOM	161.9	H	70 - 140	mg/dl

Information:

Elevated glucose levels (hyperglycemia) are most often encountered clinically in the setting of diabetes mellitus, but they also occur with pancreatic neoplasms, hyperthyroidism, and adrenocortical dysfunction. Decreased glucose levels (hypoglycemia) may result from endogenous or exogenous insulin excess, prolonged starvation, or liver disease.

Radom Glucose	Glucose Diagnosis
140-199	Pre-Diabetes
>200	Diabetes

Oral glucose tolerance (OGTT) fasting, means a person has an increased risk of developing type 2 diabetes but does not yet. A level of 126 mg/dL or above, confirmed by repeating the test on another day, means a person has diabetes. 2 hrs Post meal), means a person has an increased risk of developing type 2 diabetes but does not have it yet. A 2-hour glucose level of 200 mg/dL or above, confirmed by repeating the test on another day, means a person has diabetes. American Diabetes association standards of medical care.
